Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-19 are rejected under 35 USC §103(a). This rejection is set forth in the prior Office action mailed on December 14, 2004.

Response to Arguments

3. Applicant's arguments filed on June 8, 2005 have been fully considered but they are not persuasive.

Applicants argue that the primary reference, Lindahl, does not teach fibers, but wood chips. Yet, the claims are not drawn to a previously defibered pulp and the impregnation/treatment of the chips would impregnate the fibers of the chips. Note also that claims 10-19 do not require any treatment of the fibers, but only certain property/properties of the pulp which the pulp of the primary reference, Lindahl, inherently has, since it is impregnated with peroxide and the pulp contains traces of iron, see tables II and III.

Applicants also argue that the combination of the references, Lindahl and Kempf, is improper, because the primary reference teaches away the addition of metals in the

Art Unit: 1731

process. This is not convincing, because what Lindahl, the primary reference, teaches is the reduction of heavy metals in the process to a degree in which the effectiveness of the peroxide is degraded or reduced. Lindahl shows in the tables, e.g. table II, that the heavy metal, Iron for this particular instance, was reduced to 37 ppm. Kempf teaches that adding certain metals, non-heavy metals, help the peroxide treatment. Therefore, the teachings are not incompatible. Note also that Lindahl teaches that the pulp/chips contain(s) traces of Iron, in the same range as claimed and disclosed, and therefore, the primary reference reads on the claims as claimed, specially for claims 10-19 that do not require the addition of any component.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
